INSTITUTO CANARIO DE INVESTIGACIÓN DEL CÁNCER

3rd Meeting YCIC

Young Cancer Investigators of the Canary Islands

1st Meeting YBIM

Young Biomedical Investigators of the Macaronesia

November 9–10th, 2006

Instituto Universitario de Bio–Orgánica Antonio González

University of La Laguna, Tenerife, Canary Islands

Scientific Committee

Chairman: Sergio Moreno, CIC Salamanca

Víctor S. Martín, ULL	Paula Castilho, UMA, Madeira
Enrique Martínez, ULL	Manuela Lima, UA, Azores
Ángel G. Ravelo, ULL & ICIC	Miguel Fernández Braña, CEU, Madrid
Antonio Cabrera de León, ULL & ICIC	Nicolás Díaz Chico, ULPGC & ICIC
Javier Dorta Delgado, SCS & ICIC	Fernando García Tellado, CSIC

Local Organizing Committee

José M. Padrón, Rubén P. Machín, Leticia G. León, María C. Vega (BioLab, ICIC & ULL)

Raquel Ramírez, Germán Rodríguez (ICIC – ULPGC)

Víctor Díaz Viera (FUNCIS), Francisco Puertas (ICIC)

PROMETEO Coordinator

Rafael Zárate (ULL & ICIC)

Co-Organized by

Gobierno Autónomo de Canarias

Cabildo de Tenerife

Fundación Canaria de Investigación Sanitaria (FUNCIS)

Instituto Canario de Investigación del Cáncer (ICIC)

University of La Laguna (ULL)

University of Azores (UA)

University of Madeira (UMA)

University of Las Palmas (ULPCC)

OBJECTIVES:

1. Facilitate Young Biomedical Researchers of the Macaronesia to communicate their scientific results in a friendly environment.
2. Encourage young and senior biomedical Macaronesian researchers to cooperate in the development of new projects.
3. Obtain the expert advice from six world-class invited biomedical scientists.
4. Start up a Biomedical Research Network in the Macaronesia that will increase the success of future projects nucleated at the islands.

REGISTRATION

Participation as speaker in this Meeting will be by invitation of the Organising Committee.

Participation with a poster is offered to any young biomedical investigator (<40 yrs), with preference to those working in the Macaronesian islands.

A limited number of travel grants are available. Please contact with the following persons:

Azores: Dra. Manuela Lima, mlima@notes.uac.pt

Madeira: Dra. Paula Castilho, castilho@uma.pt

Canarias: José M. Padrón, jmpadron@ull.es

Final Program

THURSDAY, NOVEMBER 9, 2006	
Opening Ceremony ICIC President , Organizing Committees, Academic authorities	09:00-09:15
YCIC session: TUMOR GENOMICS AND MARKERS Chairmen: Juan C. Díaz Chico and Jiri Bartek	
Cristina Bilbao Syero (25') , ICIC, Las Palmas de Gran Canaria Clinical relevance of microsatellites instability in endometrial cancer	
Raquel Ramírez (15') , ICIC, Las Palmas de Gran Canaria Differences among microsatellites instability, MGMT promoter methylation and Kras mutation in colorectal and endometrial cancers	09:15-11:00
Germán Rodríguez (15') , ICIC, Las Palmas de Gran Canaria Possible clinical relevance of the combined effect of CAG and GGN androgen receptor gene polymorphisms in prostate cancer	
Ana González Hernández (15') , ICIC, Santa Cruz de Tenerife Androgen receptor polymorphisms and breast cancer risk	
Elisa Bordón Rodríguez (25') , ICIC, Las Palmas de Gran Canaria Apoptosis, proliferation and genetic regulation (p53, Bax, Bcl-2, Cyclin D1 and IGF-1R) in cervical carcinoma. Prediction of radio induced toxicity in normal tissue	
Coffee break	11:00-11:30
YCIC session: EXPERIMENTAL AND BIOMEDICAL RESEARCH Chairmen: Pedro Lara and Sergio Moreno	
Clara Guayarmina Hernández Rodríguez (25') , ICIC, Las Palmas de Gran Canaria Dietary exposure to environmental carcinogens: diet as a predictive model for serum organochlorine levels	
Luis Alberto Henríquez Hernández (25') ICIC, Las Palmas de Gran Canaria Hormone-induced changes in the gene expression pattern in liver. Influence of epigenetic mechanism	11:30 - 14:00
Dionisio Lorenzo Villegas (25') , ULPGC, Las Palmas de Gran Canaria Role of cAMP and p38 MAPK in the suppression by ATP and adenosine of NOS-2 induction by cytokines in cerebellar rat astrocytes and C6 glioma cells	
Cecilia Guzmán Bistoni (25') , ICIC, Puerto del Rosario Leptins from endemic plants of the Canaries: searching for a non-human sialic acid molecule in stomach cancer	

LUNCH	14:00-16:00
KEYNOTE LECTURES (I)	16:00-21:00
Sergio Moreno, CSIC, Salamanca Unraveling the mechanism of action of the antitumour drug Yondelis	
Juan Carlos Tercero, PharmaMar, Madrid Molecular markers of response to Yondelis	
Marcos Malumbres, CNIO, Madrid Regulation of the cell cycle by kinases and phosphatases: opportunities for therapeutic intervention	
FRIDAY, NOVEMBER 10, 2006	
YCIC / YBIM session: ANTITUMOR COMPOUNDS Chairmen: Ángel Ravelo and Jim Bischoff	
Patricia Cruz López (15') , ICIC, La Laguna 19-epi-okadaic acid, a new PP1 and PP2a inhibitor	08:45-09:30
José M. Padrón (25') , ICIC, La Laguna Fe(III)-promoted one-pot synthesis of novel marine antiproliferative drug analogs	
YBIM session: INVITED SPEAKERS (I) Chairmen: Leandro Fernández and Antonio Casado	
Miguel X. Fernandes (25') , Univ. Madeira, Funchal Molecular modeling of ligands – balancing specificity using computational methods	09:30-10:30
Enma Carmelo Pascual (25') , ULL, La Laguna DNA segregation in bacteria: the parFG system	
Coffee break	10:30-11:00
YBIM session: INVITED SPEAKERS (II) Chairmen: Víctor S. Martín and Marcos Malumbres	
Francisco J Navarro Rivero (25') , ULL, La Laguna Posttranslational regulation of a yeast nitrate transporter	
Felix Machín (25') , Hosp. N.S. de Candelaria, Santa Cruz de Tenerife Ribosomal DNA as a model to study genomic instability in cancer	11:00-12:30
José Quintana (25') , ULPGC, Las Palmas de Gran Canaria Melatonin-induced apoptosis in the human leukemia cell line HL-60	
Poster session (I) Chairman: Nicolás Díaz Chico	12:30-13:30
LUNCH	13:30-15:30

KEYNOTE LECTURES (II)	15:30-19:00
James R. Bischoff , CNIO, Madrid Aurora Kinases: from gene to drug	
Antonio Casado , Hosp. Univ. San Carlos, Univ. Complutense, Madrid Hormonal Treatment of breast cancer	
Jiri Bartek , Institute of Cancer Biology, Copenhagen, Denmark DNA damage checkpoints: Mechanism and involvement in human cancer	
CLOSING CEREMONY OF THE COURSE ON ANTITUMOR AGENTS	
Presidente del Gobierno de Canarias Presidente del Cabildo de Tenerife Rector de la Universidad de La Laguna Director de la Oficina de Ciencia y Tecnología Director del Programa Prometeo Decano de Farmacia Director del I.U. de Bio-Órgánica "Antonio González" Director del I.U. de Enfermedades Tropicales Director del IPNA CSIC Director de FUNCIS Presidente de la Fundación ICIC Director del ICIC Director del Curso de Antitumorales Director Científico de la III YCIC / I YBIM Presidente del Comité Organizador de la III YCIC / I YBIM	19:00 – 20:00
DINNER	21:00
SATURDAY, NOVEMBER 11, 2006	
YCIC / YBIM session: PERSPECTIVES IN ANTITUMOR COMPOUNDS RESEARCH IN THE MACARONESIA Chairmen: Eduardo Salido and Fernando G. Tellado José M. Padrón, Leticia G. León, María C. Vega , ICIC, La Laguna Resources of the BioLab for exploring antitumor activity of new compounds Mario Díaz, ULL, Raquel Marín, ULL Resources to study membrane effects of estrogens and antiestrogens. Rubén Pérez Machín , ICIC, ULL Resources to study steroid hormone-like effects of new compounds José Quintana , ULPGC Resources to study apoptotic activity of new compounds	09:30 – 11:30
Coffee break	11:30 – 12:00

YCIC / YBIM session: PERSPECTIVES IN ANTITUMOR COMPOUNDS RESEARCH IN THE MACARONESIA
Chairmen: Nicolás Díaz Chico and Leandro Fernández

Elisa Pérez Sacau ICIC, La Laguna, and **Miguel X. Fernandes**, Univ. Madeira, Funchal
Molecular modeling of ligands in antitumor drug discovery

Present and future projects on drug discovery based on the Macaronesian biodiversity.
Open discussion conducted by the chairmen.

Concluding remarks.

11:30-13:30

Lunch

14:00
