This offer is limited to a maximum of 25 young investigators out the ICIC.</p>	16:15-18:30
<p style="text-align: center;">First session: ANTITUMOR COMPOUNDS (I) Chairmen: Miguel Fernández Braña, Ángel Ravelo</p> <p>Patricia Cruz López (15´) "Advances in the study of dsp toxins"</p> <p>Fátima Gutiérrez Nicolás (15´) "Modification of biosynthetic pathways for the accumulation of anti-tumour compounds"</p> <p>Juan Francisco León Oyola (25´) "Improved processes for the isolation and synthesis of new drugs from natural sources"</p> <p>Elisa Pérez Sacau (25´) "Chemo-modulation of naphthoquinones as new anticancer agents"</p>	18:30-20:00
Dinner at the hotel	20:30 h

Sunday, 18th December Morning	
<p style="text-align: center;">Second session: ANTITUMOR COMPOUNDS (II) Chairmen: Federico Gago, Víctor Martín</p> <p>Clara Guayarmina Hernández Rodríguez (15') "Long-Term study of the toxic effects exerted by the consumption of nonylphenol and 4-octylphenol – contaminated water in rat"</p> <p>Raquel Díaz Peñate (25') "High antitumoral activity of lapachol derivative compounds"</p> <p>Rubén Pérez Machín (25') "Estrogen effects <i>in vitro</i> and <i>in vivo</i> on osteosarcoma cells lines UMR-106 and HOS"</p> <p>José Manuel Padrón (25') "Anticancer drug evaluation"</p>	9:00-11:00
Coffee break	11:00-11:30
<p style="text-align: center;">Third session: TUMOR GENOMICS AND MARKERS (I) Chairmen: Sergio Moreno, Tony Kouzarides</p> <p>Cecilia Guzmán Bistoni (15') "Lobular carcinoma of the breast and E-cadherin gene activation; an immunohistochemical review of the origin of that neoplasia"</p> <p>Ana González Hernández (15') "A case-control study of polymorphisms of the androgen receptor and the aromatase genes in breast cancer"</p> <p>Raquel Ramírez Moreno (15') "Microsatellite instability and hMLH1 promoter methylation in endometrial cancer"</p> <p>Luciana Carvalho de Souza Gama (15') "Molecular and clinical study in colon cancer"</p> <p>Ricardo Reyes Rodríguez (25') "Molecular bank of tumours: Study of different topics to the neoplastic illness"</p>	11:30-13:30
Lunch	13:30-16:00
<p style="text-align: center;">Fourth session: TUMOR GENOMICS AND MARKERS (II) Chairmen: Alfredo Carrato, Bodo Stern</p> <p>Raquel Cruz Dorta (15') "Tumors register at Hospital Univ. Ntra. Sra. de Candelaria"</p> <p>Carlos Mateos Díaz (15') "Purification of GST-Fusion Proteins"</p> <p>Elisa Bordón Rodríguez (15') "Predictive factors for tumor response and normal tissue damage after irradiation for Cervix carcinoma and Oral carcinoma patients"</p> <p>Eva Betancor Hernández (15') "Polymorphic genes linked to the synthesis or degradation of estrogens in breast cancer"</p> <p>Germán Rodríguez (15') "Role of the androgen receptor gene polymorphisms on endometrial cancer"</p>	16:00- 18:00
Coffee break	18:00-18:30
The ICIC members lecture Rafael Zárate	18:30 -19:30
Meeting of the ICIC members	19:30-20:30
Dinner	20:30

Monday, 19th December Afternoon	
Fifth session: Invited speakers Alfredo Carrato (Univ Miguel Hernández) Federico Gago (Univ. Alcalá de Henares)	9:00-11:00
Coffee break	11:00-11:30
Sixth session: Invited speakers Bodo Stern (Cell Editor) Tony Kouzarides (Univ. Cambridge)	11:30-13:30
OFFICIAL CLOSING CEREMONY II YCIC AWARDS	13:30 -14:00
Lunch at the hotel	14:00
Bus departure to San Sebastian	17:00 h
OPEN SESSION “Canarias Contra el Cáncer” Salón de Actos del Cabildo de La Gomera Nicolás Díaz Chico , La investigación del cáncer en Canarias Antonio Cabrera , De Canarias a Venezuela: dieta, obesidad y cáncer Francisco Taño , Prevención del cáncer de próstata Pedro Lara , Prevención del cáncer de mama	19:00-21:00
Closing banquet Offered by Cabildo de La Gomera San Sebastián	21:30 – 24:00
Bus departure to Hotel Jardín Tecina	12:00 h
Tuesday 20th December Morning The Garajonay Prehispanic Route A 3 hour walk in a beautiful rain forest, living fossil from the Tertiary Era (Checking out after 08:00 h; luggage in the bus) Bus departure at 09:00 h	09:00-13:00
